

Harrison's branded packaging is completely compostable!

This means it is:

Biodegradable, but fast!:

Certified to break down in under 12 weeks.

Renewable:

Made from plants, not plastic! Renewable natural materials (trees, corn and sugar cane) are used to manufacture it.

Low Carbon:

Natural materials means less carbon than using conventional oil-based materials.

Recycled:

Using recycled card, paper and sugar cane fibre saves virgin materials.

Sustainably Sourced:

All card or paper is from a responsible forestry source.
